

## Nursery

The Friends have re-skinned the poly-tunnel, erected a tool shed and built a number of cold frames and raised beds. This has resulted in a much improved nursery area to aid the propagation of plants.

## Awards

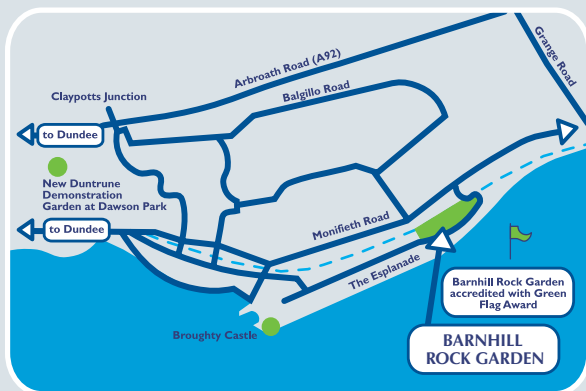

The Friends work hard with the Council and Gardener to satisfy the conditions for many awards:

- Green Flag
- Visit Scotland 4 Star Garden Award
- Beautiful Scotland Neighbourhood Awards
- Britain in Bloom RHS Neighbourhood Award
- Green Tourism Silver Business Award

So remind yourself of the benefits of being a Friend and help support the garden by joining now.

## Where we are

## Membership Application

(Signature)

Date: .....

*"Gets more beautiful  
with every year"*

*"A great place to visit,  
even in winter"*

Supported by  
**The National Lottery**  
through Awards for All

## Would you consider becoming a Friend of The Barnhill Rock Garden?

- You would be helping to support the upkeep and improvement of this lovely garden.
- You could meet others interested in gardening activities.
- You could join the garden team for their weekly maintenance and development of the garden, BUT you don't have to!
- If you wish, you could learn new skills - everything from gardening to construction.
- Excursions to other fascinating gardens and places of interest are not to be missed.
- During the winter invited speakers cover a variety of interesting subjects.
- A twice yearly newsletter will keep you up to date with all the on-going activities.

**We're sure you will agree that for an annual single subscription of £8 or £10 for a family there's a lot on offer. Nearly five hundred Friends already enjoy these benefits and so can you.**

**The Friends, founded in 1997, have helped to improve and develop the garden, in conjunction with the Council, over the years. Apart from routine maintenance here are some of those achievements:**

### Pergola

The building of an outdoor meeting place for activities and concerts.

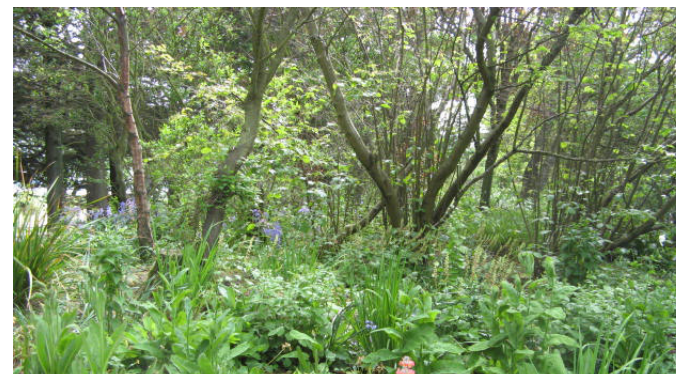

### Glasshouse

Erection of the Geddes Glasshouse - gifted by Dundee Contemporary Arts - assisted by the Council, the Friends erected the Glasshouse which is used as an information/visitor centre and meeting place. This enclosed area is also used to sell plants propagated by the Friends and display some unusual plants.

## Snowdrop Wood

The Rock Garden has a small woodland on the site. Each year since it was renovated with community help, more plants and bulbs including hundreds of snowdrops have been added to provide all year round interest.

## Scree beds

These have been totally revamped exposing large areas of natural volcanic rock. Alpines, slow growing plants and bulbs have been planted, often using generous donations made in memory of family members.
